

Corporate Social Responsibility Policy Statement

At Hampsey Limited, we believe that successful companies recognise their obligation to give back to all stakeholders. We are committed to running our business in an ethical, responsible and safe way. Our Corporate Social Responsibility (CSR) Policy is formed in line with the values found within our core policies for:

Safety — People — Ethics — Customers — Environment — Sustainability — Quality

Safety

There is a strong commitment from the Board of Management in regard to Health and Safety. The company will always do everything reasonably practicable to ensure we provide a safe and healthy work environment for our staff and aim to totally eliminate injuries and accidents at all times for all of our stakeholders.

People

As a fully inclusive organisation we do not accept or condone any forms of discrimination. We are fully committed to our people and recognise them as a great asset. By developing people, we are in a position to ensure that our staff have the skills to provide the highest quality work to our clients.

Ethics

We are an extremely ethical and credible organisation that has been built on over thirty years of strong family values. Hampsey is proud of our sustainable model. We strive to achieve economic growth whilst caring for the environment and maintaining a high degree of social responsibility.

Customer Satisfaction and Loyalty

Our thirty-year success has been built on our reputation and our ability to retain clients. We have developed long-term relationships with our client and project teams through our ability to exceed expectation and deliver projects on time and on budget.

Sustainability

We regard sustainability as an essential requirement to the operation of our business. We are committed to ensuring our business is carried out in a manner which protects the environment or our clients, employees, subcontractors and the communities in which we all work.

This policy will be kept up to date, particularly as the business changes in nature and size. To ensure this, the policy and the way in which it is implemented will be reviewed annually.
